

MICRONET UNION PRODUCT PORTFOLIO

Wi-Fi | AON | MBB | SECURITY | SWITCH | INNOVATION

About Micronet

Micronet Union is a global provider of network communication products and one-stop solutions, integrating product design, R&D, production, marketing and service. It focuses on Wi-Fi technology, and has formed different products and solutions. Presently, it boasts six product lines: Wi-Fi, AON, MBB, security, switches, and innovation. With flexible business models, including JDM, ODM, OEM, it has served hundreds of global B-end customers (operators and brand customers), reaching all provinces in the country. Its overseas business spans 6 regions and 35 countries.

Values | Keep Running

Mission | Industry Serves the Country Industry Prospers

Vision | Global Intelligent Secure Connection Device Provider

Wi-Fi Intelligent Terminal Industrial Park

Sichuan's First 5G Smart Factory

Yield 99.5%

Scales

Construction area/m ²	197,000
Daily Capacity/devices	300,000
Annual Output Value/USD	1.4 billion

China's First 5G-A Smart Factory in 3C Industry

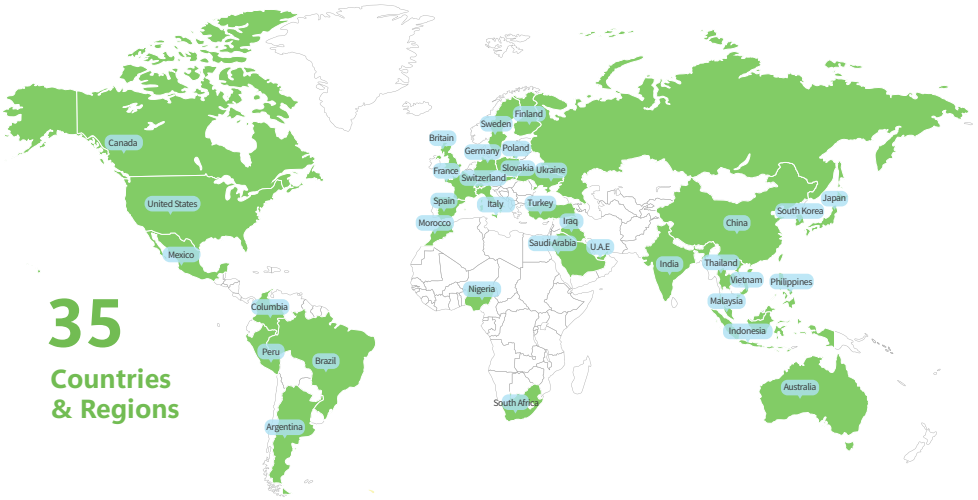

Leading time of 3-7 Days
Domestically, 30-40 Days Overseas

48 Fully Automated Production Lines

Business Models

35
Countries
& Regions

Flexible cooperation mode Meet all kinds of service requirements

For Operators (JDM)

One-stop solutions and customized services.

For Brand Owners (ODM/OEM)

High-efficiency, high-quality and low-cost manufacturing services.

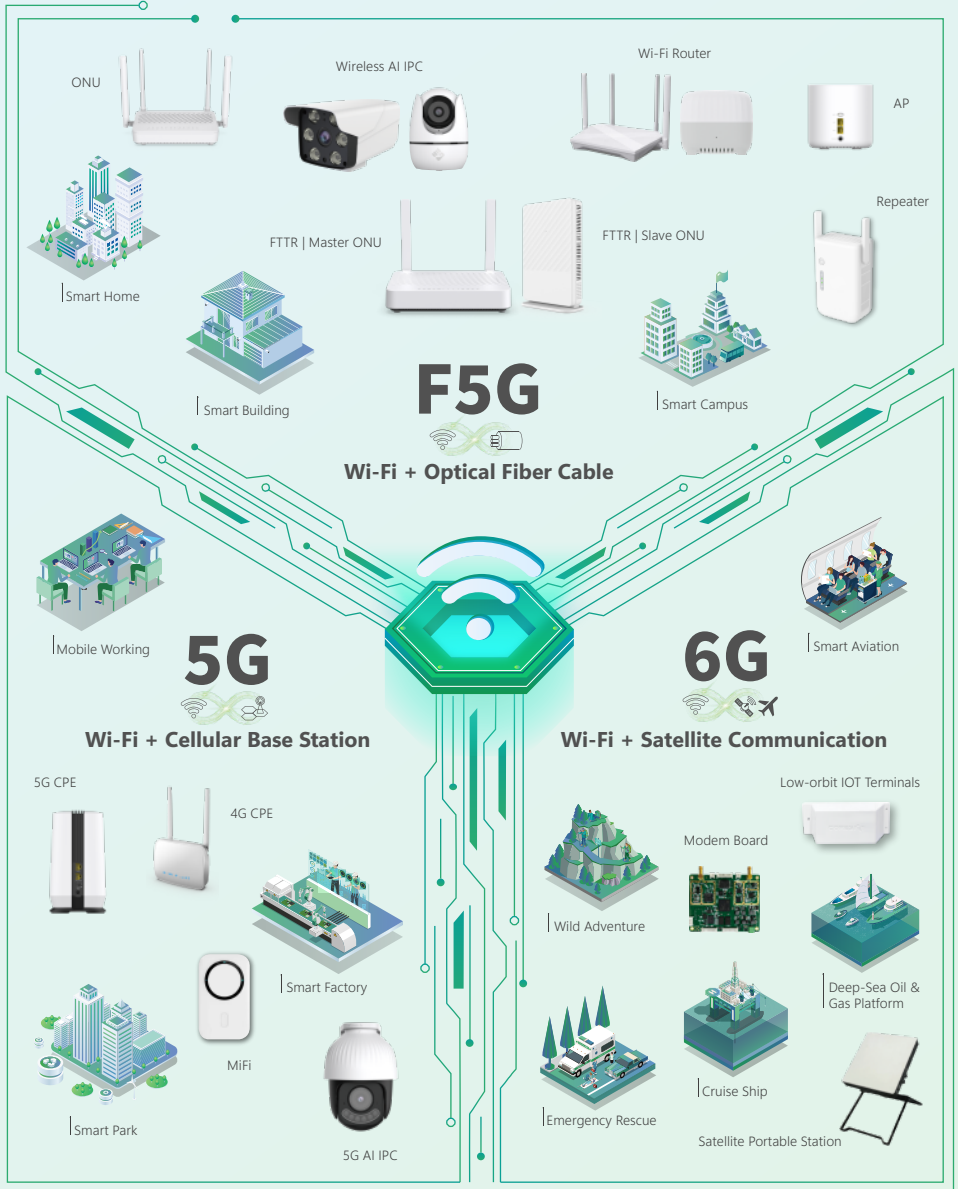

For Agents (ODM)

Customized one-stop solutions.

Product Layout

Wi-Fi tech development and integration, to form diverse products and solutions for various scenarios.

Wi-Fi Products

Application Scenarios: smart home, small enterprises, shopping malls, campus

Router

Wi-Fi 7 | BE6500

- 1×2.5G WAN port, 3×GE LAN ports
- Supports EasyMesh wireless expansion
- Provides 1 2.5G Ethernet port and 3 Gigabit Ethernet ports, suitable for IPTV access
- Supports a maximum bandwidth of 320MHz and 4096-QAM modulation

Wi-Fi 7 | BE3600

- 1×2.5G WAN port, 3×GE LAN ports
- Supports EasyMesh wireless expansion
- Introduces 4096-QAM, offering a 20% speed increase compared to 1024-QAM of Wi-Fi 6
- Multi-RU, multi-link operation

Wi-Fi 6 | AX3000

- Equipped with a dual-core 1GHz high-performance processor, coupled with 256MB DDR memory and 128MB Flash memory
- Provides 4 WAN/LAN full gigabit Ethernet ports, and supports IPTV access
- Supports OFDMA, MU-MIMO, TWT, and BSS Coloring techs
- Supports EasyMesh wireless expansion tech, achieving extensive wireless signal coverage

Wi-Fi 6 | AX1800

- 1800Mbps Speed: With 1200Mbps on the 5GHz band and 574Mbps on the 2.4GHz band
- 4×External/Internal Omnidirectional Antennas: Improves coverage and multi-device performance
- Supports OFDMA technology, MU-MIMO technology
- Wi-Fi Protected Setup™ (WPS) Button

Wi-Fi 6 | AX1500

- Dual-band 2.4GHz + 5GHz, with transmission speeds up to 1200Mbps on 5GHz and 300Mbps on 2.4GHz
- 4×external/internal omnidirectional antennas to improve coverage and multi-device performance
- WPA/WPA2, WPA-PSK/WPA2-PSK encryption for improved network security on personal networks
- Supports MU-MIMO technology
- Wi-Fi Protected Setup™ (WPS) Button

Wi-Fi Products

Application Scenarios: smart home, small enterprises, shopping malls, campus

Router

Wi-Fi 5 | AC1200

- Speed up to 1200Mbps (2.4GHz - 300Mbps, 5GHz - 900Mbps)
- Supports WPA/WPA2, WPA-PSK/WPA2-PSK/WPA3, offering superior network security
- Supports MU-MIMO, meeting the needs of high-quality HD video streaming, gaming, and file transfer
- Convenient network setup
- 4×external antennas to improve coverage

Wi-Fi 4 | N300

- Wireless Rate up to 300Mbps
- 2 External High Gain Antennas
- 11N Wireless Technology for More Wireless Terminal Access

USB Adapter

Wi-Fi 6 | AX1800

- Gets 1201Mbps on 5GHz or 574Mbps on 2.4GHz on desktop, laptop PC with this USB WiFi 6 adapter
- Supports WPA3 encryption, the latest security protocol to provide enhanced protection in personal password safety
- Supports MU-MIMO and OFDMA
- Driver-free, no need to install drivers on CD-ROM

Repeater

Wi-Fi 6 | Repeater AX1500

- Compatible with most wireless routers and gateways
- Rapid transmission speed, supporting up to 1500M transmission rate with Wi-Fi 6
- Seamless roaming, enabling connection to the strongest Wi-Fi signal without manually switching
- Space-saving wall-mounted design
- Dual-band Wi-Fi enables effortless 4K streaming, gaming, and video chats

AON Products

Application Scenarios: smart home, small enterprises

ONT (Wi-Fi)

XGS-PON AX3000

- 512MB RAM, 256MB Flash
- 1*2.5GE+3*GE+1*POTS+1*USB
- Wi-Fi 6 technology with speeds up to 3000Mbps
- 2.5G ultra-gigabit LAN port for ultimate broadband experiences
- Mesh networking for seamless Wi-Fi coverage
- ITU-T G.9807 protocol standards

GPON AX3000

- 512MB RAM, 256MB Flash
- AX3000+2*POTS+4*GE+1*USB
- Dual-band Wi-Fi with speeds up to 3000Mbps
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, supporting 1.25G symmetrical rate

GPON AC1200

- 256MB RAM, 128MB Flash
- AC1200+1*POTS+4*GE+1*USB
- Dual-band Wi-Fi with a maximum rate of 1167Mbps
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, supporting 1.25G symmetrical rate

ONT (Non Wi-Fi)

GPON

- 128MB RAM, 64MB Flash
- 4*GE+1*POTS
- Rich VOIP features including fax, call waiting, and three-way calling
- Full Gigabit Ethernet ports with 10M/100M/1000M interface speed auto-negotiation
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, 1.25G symmetrical rate

GPON

- 128MB RAM, 64MB Flash
- 4*GE
- Gigabit Ethernet ports, supporting auto-adaptive interface speeds of 10Mbit/s, 100Mbit/s, 1000Mbit/s
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, supporting 1.25G symmetrical rate

GPON

- 64MB RAM, 16MB Flash
- 1*GE+1*POTS
- Sleek and compact design for easy deployment
- Rich VOIP features including fax, call waiting, and three-way calling
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, supporting 1.25G symmetrical rate

2.5GE XPON SFU

- 32MB RAM, 16MB Flash
- 1*XPON+1*2.5GE
- Sleek and compact design for easy deployment
- Unified network management for simplified operations
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE 802.3ah protocol standards, supporting 1.25G symmetric rate

1GE XPON SFU

- 32MB RAM, 16MB Flash
- 1*XPON+1*GE
- Low-cost XPON ONT, flexible deployment
- Unified network management for simplified operations
- ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate
- IEEE802.3ah protocol standards, supporting 1.25G symmetrical rate

AON Products

Application Scenarios: smart home, small enterprises

FTTR

Master ONT

- 10G downstream rate, delivering gigabit network to every corner throughout the house
- 512 MB DDR memory and 256 MB Flash storage, high performance for various applications
- Wi-Fi 6 with a transmission speed of up to 3000Mbps
- Seamless roaming and switching for clients
- Compliant with ITU-T G.987 protocol standards

Desktop Slave ONT

- 512MB RAM, 256MB Flash
- 2xGE + 2.4G & 5G Wi-Fi 6(AX3000)
- EasyMesh wireless roaming with no insufficient zones
- 160MHz bandwidth, achieving transmission speed up to 3000Mbps
- Fiber uplink access, delivering gigabit networking to every room
- Dual gigabit interfaces for gigabit broadband access applications
- Compliant with ITU-T G.984 standards for 2.5G downlink rate and 1.25G uplink rate

Panel-mounted Slave ONT

- 1xGE + 2.4G & 5G Wi-Fi 6
- EasyMesh wireless roaming with no insufficient zones
- 160MHz bandwidth, achieving transmission speed up to 3000Mbps
- Optical-electrical composite cables for remote power supply from the gateway

Ceiling-mounted Slave ONT

- 1xGE + 2.4G & 5G Wi-Fi 6
- EasyMesh wireless roaming with no insufficient zones
- 160MHz bandwidth, achieving transmission speed up to 3000Mbps
- Optical-electrical composite cables for remote power supply from the gateway

OLT

XG(S)-PON OLT

- 8*XG(S)-PON/GPON + 8 *10GE/GE SFP + 2*100G
- Support 10G PON without changing ODN network architecture or replacing GPON OLT
- allowing for mixed networking of different types of ONUs
- Meeting the demands of various services including broadband, VoIP, and IPTV

GPON OLT

- 8*GPON+4*10GE+4*GE
- Lightweight OLT: Small form factor suitable for small-scale POL networks
- Flexible Deployment: Quick installation in indoor cabinets and outdoor enclosures
- High Reliability: Dual-power redundant backup for enhanced reliability

MBB Products

Application Scenarios: ISP, e-commerce, SMB

MiFi

4G CPE

- LTE Cat4, Wi-Fi 2.4G, N300
- 1*Micro USB
- Battery: 2100mAh/3000mAh

5G CPE

MM521B7

- Speed up to 4.67Gbps/2.5Gbps in SA mode and 3.74Gbps/1.46Gbps in NSA mode
- Supports 802.11b/g/n/ac/ax Wi-Fi 7, BE7200, and dual-band Wi-Fi hotspot sharing at 2.4G/5.8GHz
- Supports up to 32 users
- 1 2.5G port, 2 Gigabit Ethernet ports, 1 RJ11 voice port, VOLTE voice calls (optional)

MM521X2

- Speed up to 4.67Gbps/2.5Gbps in SA mode and 3.74Gbps/1.46Gbps in NSA mode
- Supports 802.11b/g/n/ac/ax Wi-Fi 6, AX1800, and dual-band Wi-Fi hotspot sharing at 2.4G/5.8GHz
- Supports up to 32 users
- 2 Gigabit Ethernet ports, 1 RJ11 voice port, VOLTE voice calls (optional)

MU541X2

- Supports 5G SA/NSA, 3GPP R15 Wi-Fi6 AX1800
- 5G: 3GPP Release 15
- Ethernet: IEEE 802.3
- Wi-Fi: IEEE 802.11b/g/n/a/ac/ax
- 1xGE WAN/LAN port, 3x GE LAN port, 1x RJ11 port(Optional)

4G CPE

MA420N

- Supports 4G CAT4 and 802.11 a/b/g/n Wi-Fi standards
- 2.4G, Wi-Fi2*2 MIMO
- Built-in power, Type-C 5V 3A

MZ411NB

- Supports 4G CAT4 and 802.11 a/b/g/n Wi-Fi standards
- Dual-external antenna
- Supports RJ11 voice calls
- Battery: 4000mAh 3.7V

Security Products

Application Scenarios: smart home, small enterprises, shopping malls, campus, outdoors

Pan & Tilt IP Camera

4MP Indoor Pan & Tilt Camera

- Model: DB-YD11/ DB-YD12/ DB-YD13
- High Quality Imaging with 4MP Resolution
- Two-way Audio as Like Face-to-face Communication
- Sharp details in both light and shade with a night Vision distance of 10 meters
- Cloud Storage and Micro SD Card Storage
- Wired/wireless Connection, DC5V 1A Power Supply

3MP Indoor Pan & Tilt Camera

- Model: DB-YC21 / DB-YC22
- High quality imaging with 3MP resolution
- Two-way voice intercom
- Motion detection and sound detection
- Customized detection zones
- Easily recognize facial features
- TF card storage and cloud storage

3MP Indoor Card Camera

- Model: DB-FC21/DB-FC22
- Great quality video with 3MP resolution
- Motion detection and sound detection
- Customized detection areas
- Human detection
- TF card storage and cloud storage

Bullet IP Camera

3MP Battery-powered Camera

- Model: DB-BC21/ DB-BC22
- High quality imaging with 3MP resolution powered by battery
- Two-way voice intercom
- PIR detection and human detection
- Customized detection areas
- Infrared night vision and full-color night vision
- TF card storage and cloud storage

4MP Outdoor Bullet Camera

- Model: DB-QD11/ DB-QD12/ DB-QD13
- High quality imaging with 4MP resolution
- Built-in microphone for real-time auto security
- Excellent low-light performance
- Motion detection, human detection, and zoned alarms
- TF card storage and cloud storage

Security Products

Bullet IP Camera

3MP Outdoor Bullet Camera

- Model: DB-QC11/ DB-QC12
- High quality imaging with 3MP resolution
- Two-way voice intercom
- Human detection, motion detection and sound detection
- Customized detection areas
- Alert notifications
- TF card storage and cloud storage

Dome IP Camera

3MP Outdoor Dome Camera

- Model: DB-PC21/DB-PC22
- 1/2.8" CMOS Image Sensor
- Resolution: 2560x1440@20fps
- Lens: Focal length 4mm, Aperture F2.0
- Network Interface: One RJ45 port
- Infrared night vision and full-color night vision
- Wireless: 2.4GHz Wi-Fi, 802.11b/g/n
- Motion detection, sound detection, and human detection
- TF card storage (up to 256GB), and cloud storage

Switch Products

Application Scenarios: enterprises

Managed Access Switch

WS3486-GT XS: 48-port Gigabit Fully Electrical Managed Access Switch

- Downlink Ports: 48*10/100/1000BASE-T, Uplink Ports: 4*SFP+2 Dedicated 12.5G Stacking Ports
- Gigabit Access with High Cost-effectiveness
- Supports Layer 2, Security Protection Mechanisms, ACL/QoS Policies, VLAN
- Easy to Manage and Maintain, Suitable for Small and Medium-sized Network Access Layers in Enterprises, Campuses, and Other Scenarios
- High Performance, High Security, and High Reliability

WS3244-GT XS

- Downlink Ports: 24*10/100/1000BASE-T, Uplink Ports: 4*SFP+
- Gigabit Access with High Cost-effectiveness
- Supports Layer 2, Security Protection Mechanisms, ACL/QoS Policies, VLAN
- Easy to Manage and Maintain, Suitable for Small and Medium-sized Network Access Layers in Enterprises, Campuses, and Other Scenarios
- High Performance, High Security, and High Reliability

Unmanaged Access Switch

WS2482-GT XS

- Downlink Ports: 48*10/100/1000BASE-T, Uplink Ports: 2*SFP+
- Easy Installation, Providing Rich Services
- Three Modes to Cater to Various Scenarios: Standard Mode, Flow Control Off, and Port Isolation
- Plug-and-play Design for Convenient Operation
- High Anti-interference Capability, Supporting 6KV Lightning Protection, Well-suited for Various Harsh Environments

WS2242-GT XS

- Downlink Ports: 24*10/100/1000BASE-T, Uplink Ports: 2*SFP+
- Easy Installation, Providing Rich Services
- Three Modes: Standard Mode, Flow Control Off, and Port Isolation, to Adapt to Various Application Environments
- Plug-and-play for Convenient Operation
- High Anti-interference Capability, Supporting 6KV Lightning Protection, Well-suited for Various Harsh Environments

Switch Products

Unmanaged PoE Switch

WS2082-GTSFP-P120

- Downlink Ports: 8*10/100/1000Base-T, Uplink Ports: 2*1000Base-X SFP
- Compact and Elegant Appearance, Convenient for Deployment
- Provides Three Working Modes: Extend, Default, and VLAN
- Plug-and-play for Convenient Operation
- Compliant with IEEE 802.3af/at Standards, Single-port PoE Power up to 30W

WS1082-TGT-P120

- Downlink Ports: 8*10/100BASE-T, Uplink Ports: 2*10/100BASE-T
- Compact and Elegant Appearance, Easy to Use and Maintain
- Three Working Modes: Extend, Default, and VLAN
- Plug-and-play for Convenient Operation
- Compliant with IEEE 802.3af/at Standards, Single-port PoE Power up to 30W

WS1042-TT-P60

- Downlink Ports: 4*10/100BASE-T, Uplink Ports: 2*10/100BASE-T
- Compact and Elegant Appearance, Easy to Use and Maintain
- Three Working Modes of Extend, Default, and VLAN
- Plug-and-play for Convenient Operation
- Compliant with IEEE 802.3af/at Standards, Single-port PoE Power up to 30W

Innovative Products

Application Scenarios: aviation, navigation, drilling platforms, field surveying and mapping, geological exploration, emergency rescue and other areas where the base stations cannot cover

Satellite Communication

Satellite Portable Station

- Antenna Type: High Gain Microstrip Antenna
- BUC: 8W/16W (Ku)
- Star Search Mode: Auto
- Modem: Skyway or IQ200 (0.35m)

Modem Board

- Technology System: TDM/MF-TDMA
- Symbol Rate: Forward 100ksps-45Mps, Back Towards 100ksps-45Mps
- Technical Features: Onesat@Time Gap Fast Frequency Hopping, Ultra-Low Demodulation Threshold, Adaptive Modulation and Coding, Adaptive Power Control

Low Orbit IOT Terminals

- Transmitted Power: 0.5W/1W, Default 0.5W
- Upstream Rate: 1.2/2.4/4.8/9.5kbps
- Downstream Rate: 2.4kbps
- Terminal Form: Support Container, Car, Ship and Other Installation Methods
- When the Low-Orbit Constellation Network is Completed, the Above is the Line Cloud Module Index

IoT Communication Module

- Transmit Power: 0.5W/1W, Default 0.5W
- Upstream Rate: 1.2/2.4/4.8/9.5kbps
- Downstream Rate: 2.4kbps
- Terminal Form: Support Container, Car, Ship and Other Installation Methods
